# More Information

## School Holidays

If you aren't a teacher or don't have school-age kids, chances are these holidays are not on your radar! But they are worth noting, especially if you have guests who are teachers or you are choosing a date within school holidays, as accommodation books up much quicker during these periods and some vendors may choose to take some time off during these times.

Please note, in this calendar we have provided the approximate date ranges for public school holidays, these will differ year to year and private schools will also be slightly different. Please check specific year dates. We have provided useful links at the QR code below.

## Ramadan

Ramadan varies each year, we have included the dates for 2024, these will shift slightly earlier each year.

## Local Events

We have listed local events that may impact your date choice due to factors like accommodation and vendor availability. We also recommend checking the Events calendar, scan the QR code below.

## Easter Dates

### 2024 - 2029

Easter can be a great time for a wedding, (usually the Saturday between Good Friday and Easter Sunday). Most of your guests have time off and the weather is still pretty good in the South West. However, planning an Easter wedding comes with an added layer of logistics. You will need to secure accommodation significantly further in advance and you might find that vendors are either away or extremely low on availability. We recommend checking with a few vendors and accommodation locations before locking in the date.
